CAUTION READ BEFORE INSTALLATION

• Retain these instructions for future reference. This product must be installed by a person familiar with the construction and operation of the product and the hazards involved, in accordance with applicable NEC code.
• Switch off main power before beginning installation.
• Install per national installation and accident prevention regulations.
• Clearance between sides of luminaire and parts of building to be 1/2 inch minimum; clearance to insulating materials to be 3 inch minimum, unless luminaire is IC rated.
• Fixtures must be installed in applications where the ambient temperature does not exceed 40ºC during normal operation.
• DO NOT connect or disconnect LED board wire connector when the fixture is energized. This may result in permanent damage to the LED array.
• Warranty claims will not be accepted if incorrect driver or light engine is used.

DRIVER REPLACEMENT:

1. Remove trim.
2. Remove optical reflector by 1/4 turn clockwise.
3. Remove heat sink to the highest vertical position.
4. Loosen thumb screws (2X). DO NOT REMOVE.
5. Slide up and pull ballast plate off mounting screws.
6. Pull ballast through aperture.
7. Disconnect electrical connection (2-pin and 3 pin connector)
8. Connect new driver.
9. Install in reverse order.
CAUTION READ BEFORE INSTALLATION
