INTRODUCING SAVANT LIGHTING

Automate your lights with Savant and deliver beautiful color to any room. Savant combines colored smart light bulbs and LED strips with a remarkable App experience.

STEP 1

Download the Savant Lighting TrueImage iOS App, create a Savant account

STEP 2

Install bulbs and turn light fixtures on, bulbs will flash different colors for a few seconds

STEP 3

With Bluetooth enabled on your iOS device, discover your bulbs

STEP 4
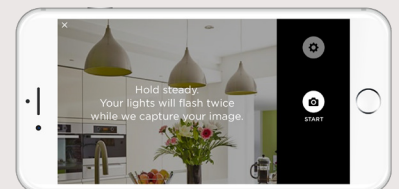

Name each bulb and assign to rooms and groups

STEP 5

Take your TrueImage photos, you can retake the photo to get it just right

STEP 6

Tap the gear to adjust exposure as necessary to capture the light

STEP 7

Enjoy your lighting! Adjust the color of the lights and see it update in real time

STEP 8

Things to try - Create a new scene using multiple lights that can turn on or change color as a group with a single button press
